Hi Everyone,

Please find attached SitReps 60-61. Sorry for the delay; the last two weeks have been busy. With EPA's demobilization at the Site for the winter, I hope you'll find that you haven't missed out on too much. Speaking of which, I will be out of the office until Thursday, January 5. I will update you with any SitReps put out between now and then when I return. Thanks, and have a happy holidays.

Best,

Leo

Hi,

I hope everyone had an great Thanksgiving. Last week, EPA finished its excavation work for this construction season in Zones 2 and 3. Additional information can be found in last week's Sitrep. Sorry for the delay.

Best,

Leo

Hi Everyone,

After a brief hiatus, the sitreps are again available for your viewing. Please find attached the sitrep issued yesterday (10/19). I hope you'll understand that EPA contracting information is no longer being included in these documents. Also, I believe these documents will only be produced 3 times a week going forward. I will try to get them to you as soon as I get them.

If you have any questions or concerns, please let me know.

Best,

Leo

Hi Everyone,

Please find attached the Sitreps for Wednesday, 9/28.

Note: EPA is considering a change of format to streamline the information and ensure that it is internally consistent. As such, you may not receive a Sitrep for the next few days. We will do our best to keep you apprised of any major news at the Site. Thanks!

Best,

Leo

Subject: USS Lead Sitreps for the week of 9/12 and 9/19

Hi Everyone,

Several weeks ago I attempted to add everyone receiving this email to the mailing list for EPA's daily Situation Reports (Sitreps), which outline day-to-day work at the USS Lead Site. There were technical issues at the time (emails sent to your addresses by the listserv were bouncing), but I thought they had been resolved. Apparently they were not, and today I learned that you have not been receiving these reports. For that I can only offer my sincerest apologies.

I've reached out to the people managing the listserv with the hopes of fixing the problem, but

until that happens, I will do my best to forward the reports to the group myself. You'll find that I've attached the Sitreps for last week and this week to this email. For what it's worth, and as you'll see, the Sitreps are largely cumulative—between each day, what mostly changes is the number of properties sampled, and the number of homes cleaned. This means that skimming the last few should give you a good sense of what previous Sitreps were like, and what conditions at the Site are like now.

Please let me know if you have any questions.

Best,

Leo
